Free Physician Training

The WCEA is providing free access to training modules to assist physicians during the COVID 19 pandemic.

The courses can be made available to your members by providing them with WCEA learning mobile phone app which is available for Android and iOS.

The first suite of courses are provided by the NHS & Health Education England by agreement with E-integrity.

We are also in ongoing contact with many of the world's leading educators and will be adding new modules on a regular basis. For example, we are also supplying courses from University of Oxford and the American College of Emergency Physicians.

To view an example of one of the courses please use the link:

<https://wcea.education/preview>

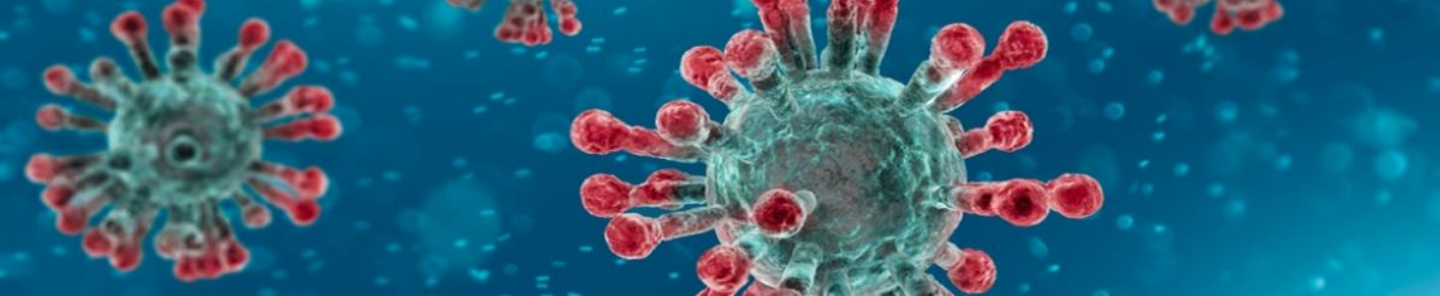

To review the additional courses please login to your admin account with the details in the email.

Please note, the admin link contains all courses, some of which are for other healthcare professionals. When the app is downloaded, the courses provided will have been selected for physicians.

To give access to the courses please distribute the below link to your members:

<https://wcea.education/covid/>

We have included a suggested email that can be circulated.

Subject: Covid 19 Courses

Dear Members,

We have been contacted by the WCEA who are official collaboration partners of the World Medical Association.

Access to Covid 19 multidisciplinary courses are now available to you by downloading the WCEA learning app to your phone.

The initial content is being provided by the NHS and Health Education England with additional resources to be added from other education providers on an ongoing basis.

To get access:

1. Register at: <https://wcea.education/covid/>
1. You will then receive the link to the App and your username and password.

Regards
